

OSBORNE

ARCH PUNCHES

These punches should be used on a wood or plastic cutting block or the Osborne No. #603 Cutting pad. The use of a wooden or rawhide mallet is recommended. Steel hammers are not recommended.

ARCH PUNCH - Original and correctly designed for cutting

Osborne No. 149

Osborne arch punches are drop forged in one piece from the finest special carbon steel in sizes from 3/16" to 2 1/4" diameter. Larger sizes are made with our properly engineered two piece welded construction. A unique feature of the Osborne arch punch is the inside taper which permits the punchings to clear easily through the barrel. Punches have fully polished barrel and black enamel handle.

Meets Government Standards

The cutting edge is fully hardened all the way through and properly finished to provide long use trouble free punching. There is no other Hollow Punch that can compare.

Stock sizes shown below in inches with black enamel finish.
